Mr. Kolbe.

Dear Sir,

Mr. A. Conger Goodyear, President of the Buffalo Fine Arts Gallery (Albright Gallery), has asked me to organize an international exhibition of modern sculpture, and has asked me to approach some of the leading sculptors, such as yourself, Hiller and Paul-Gmelin in Germany, Epstein and Ashton in England, Bourdelle, Despiau, Lehlbi and Bernard in France, Archipenko and Zadkine, in Russia, Mestrovich in Serbia, Milles in Sweden and Manolo in Spain, with a view to sending to Buffalo (U.S.A.) some of their works to be exhibited there.

I have already received acceptances from Epstein, Dobson and Manolo, and the object of this letter is to ask your acceptance on principle.

The organization of this exhibition would be as follows: Mr.Goodyear would pay all the expenses incurred in collecting, packing, shipping and insuring the works [the insurance would be effected at the price you would stipulate for each work]. The return of the works, if unsold in America, would also be carried by Mr. Goodyear.

On the other hand, Mr. Goodyear would have your permission to exhibit these works not only in Buffalo but in one or two important museums in the United States. Furthermore, you would be requested to stipulate the selling price for each work exhibited and for each replica thereof, so that Mr.Goodyear might give you consolidate either for the original work or for one or more replicas of it in any medium that might be suitable both to you and to him.

I shall be in Germany at the end of February or the beginning of March and I will certainly call on you at that time and see you work your decision may be on that subject.

Fraulein Dr. Charlotte Schiller, Detmoldstr. 64, Berlin-Wilmersdorf, being already in charge of the affairs connected with the International Exhibition of the Carnegie Institute in Pittsburgh, could, in the mean time, give you some general indications as to our activities.

Very sincerely yours,

Guillaume Lerolle
